Executive summary

The Sutherland Hospital Operating Theatre involves the construction of a new Clinical Services Building (The Project). The Project will be delivered as a combination of new build and refurbishment in a 'live' hospital environment.

Natascha Arens of NGH Pty Ltd was engaged to undertake this second construction independent audit of the project.

The objectives of the audit were to conduct an independent review of compliance with the Conditions of Approval SSD-11099584 issued by the Minister for Planning and Public Spaces on the 21 October 2021 in accordance with the requirements of the Independent Audit Post Approval Requirements, May 2020 (DPIE 2020).

The scope of the audit was in accordance with Section 3.3 of the Independent Audit Post Approval Requirements (May 2020). The scope in general included:

- Conditions of consent applicable to the pre-construction and construction phase of the project
- All post approval documents required by the conditions of consent (e.g. Environmental management plans and sub plans)
- All environmental licences and approvals applicable to the development
- An assessment of the environmental performance of the development
- A high-level review of the project's EMS
- A high-level assessment of whether Environmental Management Plans and Sub-plans are adequate.

This audit found no non-compliances with conditions, compliant with 78 Conditions and 71 conditions were not triggered out of a total of 159 conditions of approval.

1. Introduction

1.1. Background

The Sutherland Hospital Operating Theatre involves the construction of a new Clinical Services Building. The Sutherland Hospital Operating Theatres Project will be delivered as a combination of new build and refurbishment in a 'live' hospital environment. The key components include:

- The operating theatres will increase from 5 to 8 as well as the endoscopy suits increasing from 1 to 2, resulting in a total of 10 spaces with associated clinic rooms
- Supporting spaces including recovery, day surgery, storage, staff amenities and other clinical and non-clinical support spaces
- A new Central Sterile Supply Department (CSSD) will be built immediately above the operating theatres
- A new MRI space will be built immediately below the operating theatres.

The project is subject to a State Significant Development (SSD-11099584). The project approval was obtained from the then NSW Minister for Planning and Public Spaces on the 21 October 2021.

1.2. Audit Team

The audit was undertaken by Natascha Arens, Exemplar Global Certified Principal Environmental Auditor. Natascha has around 25 years' experience as an environmental professional and 20 years of auditing experience. It is noted that the first audit was undertaken prior to receipt of a response from DPE regarding approval of Natascha Arens as the Independent Auditor. Natascha has subsequently been approved as the Independent Environmental Auditor by the Department of Planning and Environment (Appendix B:)

1.3. Objectives

The objectives of the audit were to conduct an independent review of compliance with the Conditions of Approval SSD-11099584 issued by the Minister for Planning and Public Spaces on the 21 October 2021 in accordance with the requirements of the Independent Audit Post Approval Requirements, May 2020 (DPIE 2020).

1.4. Audit Scope

The scope of the audit was in accordance with Section 3.3 of the Independent Audit Post Approval Requirements (May 2020). The scope in general included:

- Conditions of consent applicable to the pre-construction and construction phase of the project
- All post approval documents required by the conditions of consent (e.g. Environmental management plans and sub plans)
- All environmental licences and approvals applicable to the development
- An assessment of the environmental performance of the development

- A high-level review of the project's EMS
- A high-level assessment of whether Environmental Management Plans and Sub-plans are adequate.

1.5. Audit Period

The audit period for this audit was from the finalisation of the first audit report on the 22 March 2022 to the date of site visit 21 September 2022 and document review (20 -23 September 2022). The audit program required the second audit to occur within 26 weeks of the first audit.

2. Audit Methodology

2.1. Selection and endorsement of audit team

The Department Planning, Environment (DPE) was notified that Natascha Arens was the proposed Independent Auditor for the Project. It is noted that DPE had not endorsed Natascha Arens as the Independent Auditor prior to the first audit, however she has since been endorsed by DPE.

2.2. Scope Development

The Audit program was submitted prior to the first audit to the Auditee indicating the dates of the site audit, scope, criteria, audit details and required project representatives.

The audit scope as developed during the preparation of the Audit program and a desktop audit. This involved:

1. Reviewing the SSD-11099584 Conditions
2. Reviewing the DPE Independent Audit – Post Approval requirements (2020)
3. Undertaking a desktop review of the approved Environmental Management Plan and sub plans
4. Preparing the Audit Table.

2.3. Compliance evaluation

Document review was undertaken the 19- 27 September 2022 in addition to a site visit on 21 September 2022. The document review included a review of the Conditions of Approval, all management plans and sub plans and available desktop information to determine evidence of compliance.

An Opening Meeting was held on 21 September 2022 at 9am on site. Present at the opening meeting were:

- Natascha Arens (NGH – Independent Auditor)
- Kyle Mercer (NGH – Senior Environmental consultant)
- Mike Picciotto (CBRE project representative)
- Reg Struwig (Hindmarsh Project Manager)
- Aivy Le (Hindmarsh Site Engineer)

The final audit report was issued to Hindmarsh, CBRE and HI on the 31 March 2022.

2.4. Site interviews

Site interviews occurred with the following staff:

- Mike Picciotto (CBRE project representative)
- Reg Struwig (Hindmarsh Project Manager)
- Aivy Le (Hindmarsh Site Engineer)

2.5. Site Inspection

A site inspection was conducted at 11.00am on 21 September 2022. The purpose of site visit was to undertake an inspection of works on site, view the site and access arrangements and gain an understanding of the current scope of the works.

2.6. Consultation

Email consultation was undertaken with the Department of Planning and Environment. The auditor provided a broad description of the scope of the audit including stating that the audit would cover:

- Conditions of consent applicable to the construction phase of the project
- All post approval documents required by the conditions of consent (e.g. implementation of Environmental management plans and sub plans)
- All environmental licences and approvals applicable to the development
- An assessment of the environmental performance of the development
- A high-level review of the project's EMS

Outcomes of consultation are summarised in Section 3.9.

Copies of correspondence are provided at Appendix C:

Given the contained nature of the project to the hospital grounds and given that there are no road works associated with the project, consultation with other agencies such as council or Transport for NSW was not considered necessary.

2.7. Compliance Status Descriptors

The compliance descriptors used in this report are:

Compliant Requirement has been met

Non-Compliant Requirement has not been met

Not Triggered Requirement not relevant to the current stage of work

3. Audit Findings

3.1. Approval and Document List

The list below includes all documentation reviewed to check compliance. The text in **Bold** are additional documents reviewed during the preparation of this second audit.

EIS and Planning Consent documentation

- Development Consent SD-11099584
- Environmental Impact Statement – The Sutherland Hospital Operating Theatre Upgrade (Architectus April 2021)

Plans, sub plans and reports including:

- **Extended working hours acoustic assessment (Pulse White Noise Acoustics April 2022)**
- **Extended working hours compliance assessment (Pulse White Noise Acoustics June 2022)**
- **Independent Audit Report (NGH March 2022)**
- **Arcadia Landscape plans Issue 3 dated 11 April 2022**
- Phreatic Consulting: Interim Advice 1, AUDIT Sutherland Hospital Part A - Operating Theatre Complex: Review of Remedial Action Plan 1/2/2022
- Phreatic Consulting Interim Advice 2, AUDIT Sutherland Hospital Part A - Operating Theatre Complex: Review of Site Assessment 9/2/2022
- Acor consultants Structural engineering certificate for early works 15/12/2021
- Acor consultants Structural engineering certificate for Main building works and refurbishment of the existing Level 3 Theatre 4/3/2022
- Construction staging report prepared by Health Infrastructure November 2021
- Project Solutions Pty Limited: Kareena Road, Caringbah The Sutherland Hospital Dilapidation Report 20/10/2021
- Demolition work plans Noble Works Australia Pty Ltd 25/11/2021
- Environmental Management & Sustainability Plan(EMP) Prepared by Hindmarsh 14/10/2021
- Soil and Erosion Sediment Control plan – CV-DG-50001 issued 4.2.2021
- Construction Traffic and Pedestrian Management Plan The Sutherland Hospital Operating Theatre Complex –Rev04 (Prepared by Emma Clohessy on behalf of Hindmarsh)
- The Sutherland Hospital, Operating Theatre Upgrade – Construction Noise and Vibration Management Sub-Plan 20/10/2021 Prepared by Pulse White Noise Acoustics
- Soil and Erosion Sediment Control plan – CV-DG-50001 issued 4.2.2021
- Plant Schedule prepared by Arcadia 13/4/2021
- Arcadia L-401 to 405 landscape plans
- JHA Consulting Engineers ESD Services Certificate of DesignforCC#2 28/2/2022
- Project Management Plan
- EIG005 Atmospheric Emissions
- EMP - EIG012-Heritage \Culture Management \Disturbance
- Emma Clohessy Licence number 0052225057 exp 27/11/22

- JEC Air conditioning Design Certificate- Mechanical Services
- Driver code of conduct
- JK Environments letter report 10/1/2022
- JK environment report 17/12/2021
- Asbestos removal control plan 25/11/2021 prepared by Serve Group PTY LTD – asbestos licence holder
- JK Environments report on revised remediation Action Plan March 2022

Correspondence including:

- **DPE Warning Letter regarding C 39 (11 May 2022)**
- **Email receipt dated 7/4/2022 regarding receipt of Audit report 1 and notification of non compliances**
- Arcadia Landscape Architecture letter re B23 21/3/2022
- Council correspondence: Email dated 6/10/2021
- Return email from Council dated 19/1/2021
- TFNSW Correspondence 30/11/2021 & 1/12/2021
- NBRS architecture letter dated 11/2/2022
- Email correspondence with Council – 1/11/2021
- Letter to residents Dated 15/11/2021 and CVNMP
- DPIE Submission via planning portal dated 06/12/2021
- DPIE post approval forms 6/12/2021, 31/1/2022
- Council correspondence: Email dated 6/10/2021
- Return email from Council dated 19/1/2021
- TFNSW Correspondence 30/11/2021 & 1/12/2021
- DPIE communication dated 06/12/2021
- Aconex correspondence and letter to certifier dated 1/12/2021
- CBRE correspondence dated 15/12/2021

Other documentation

- **Crown Certificate 1 Blakett Maguire and Goldsmith 22 December 2021**
- **Crown Certificate 2 Blakett Maguire and Goldsmith 10 March 2022**

-

3.2. Compliance Performance

This audit found the project to compliant with 78 Conditions and 71 conditions were not triggered out of a total of 159 conditions of approval (Table 3-1).

For the purposes of Table 3-1, if a Condition contained a part which is relevant, the whole Condition is counted as being relevant. Similarly, where a non-compliance was found with part of a Condition, the entire condition is considered non-compliant.

Table 3-1 Summary of Compliance

	Part A	Part B	Part C	Part D	Part E
Number of Conditions of Approval	35	26	44	29	15
Number of Non-compliances	0	0	0		
Number of compliances	20	21	36	1	
Number Not Triggered	15	5	8	28	15

3.3. Notices, Orders or Prosecutions

One warning letter from DPE has been received regarding the first audit proceeding prior to written approval from the Secretary as required by C39 of Development Consent SSD-11099584. DPE have subsequently endorsed the independent auditor as issued in the correspondence dated 22 April 2022. No other orders, infringement notices or prosecutions had been issued during the audit period.

3.4. Non-Compliances

This audit has not raised any non compliances for the audit period.

3.5. Previous Audit

The following non compliances were noted in the first audit. The

No	Condition	Recommendation	Status
B23	<p>Landscaping</p> <p>Prior to the commencement of construction, the Applicant must prepare a revised Landscape Plan to manage the revegetation and landscaping works on-site to the satisfaction to the Certifier. The plan must:</p> <p>f) include the provision of nest boxes suitable to native fauna likely to use the site.</p>	<p>The landscape design does not include the provision of nest boxes. If this is deemed unnecessary by an ecologist then DPE should be contacted to discuss options, including modifying the condition.</p>	<p>Closed – the landscape plan has subsequently been updated to include the provision of four nest boxes in Section 3.10 of the plan (Arcadia Landscape plans Issue 3 dated 11 April 2022).</p>
C39	<p>Independent Environmental Audit</p> <p>Proposed independent auditors must be agreed to in writing by the Planning Secretary prior to the commencement of an Independent Audit.</p>	<p>Follow up with DPE regarding endorsement from Planning.</p>	<p>Closed – The independent audit has been endorsed by DPE as evidenced by the correspondence from the Department dated 22 April 2022.</p>

3.6. Environmental Management Plans, Sub plans and Post approval documents

The project operates under an Environmental Management & Sustainability Plan (EMP) and a range of subplans required by the Conditions of Approval. The current version of the EMP is dated 14/10/2021.

The EMP includes the following standalone sub plans:

- Construction Noise and Vibration Management Plan
- Construction Traffic and Pedestrian Management plan

Environmental management on site is further managed through the implementation of Environmental Impact Guides (EIG). EIGs relevant to this project include:

- EIG001-Soil Erosion, Sediment, Surface Run Off (Appendix. C)
- EIG004- Noise Emissions (Appendix. D)
- EIG006- Vibration (Appendix. E)

- EIG 009 – Social Impact
- EIG011- Solid and \ or Liquid Waste, Recycling
- EIG012- Heritage \ Culture Management \ Disturbance
- EIG013- Land Contamination
- EIG014- Visual Amenity

The plans address the requirements of the Approval and reflect the key risks on site.

Implementation of the requirements of the EMPs and EIGS is via checklists and site inspection. In addition, monitoring for compliance with noise limits is also occurring. This audit has found broad compliance with the implementation of environmental management plans as evidenced through a review of EIG checklists.

3.7. Environmental Management System

Hindmarsh operates an Environmental Management System as per the requirements of AS14001:2004 and the NSW Government Environmental Management System Guidelines Edition 2. The EMS has been certified as compliant with the AS 14001:2004 for the period from the 20 March 2021 – 19 March 2024.

3.8. Environmental performance

Environmental performance of the project is provided in the summary of the non-compliances (Section 3.4), implementation of the management plans (Section 3.6) Incidents and Complaints (Section 3.10 and 3.11) and actual versus predicted impacts (Section 3.12).

No other relevant regulatory requirements apply to the project.

3.9. Consultation Outcomes

As noted in Section 2.6 above, DPE were contacted as part of this independent audit. DPE responded stating that they were comfortable with the proposed approach outlined in Section 2.6 above and had no further comments.

3.10. Complaints

There have been no complaints to date.

3.11. Incidents

There have been no incidents reported to date.

3.12. Actual vs Predicted Impacts

A review of relevant sections of the EIS was undertaken to ascertain the expected impacts during this construction stage of the project. Additionally, a review of the relevant management plans was undertaken to compare the predicted impacts against the actual impacts.

Vegetation

The EIS identified 5 trees requiring to be retained and protected during construction.

It was noted during the site assessment that the vegetation to be retained was protected via barrier fence (refer to site photos in Appendix B).

Aboriginal Heritage

An Aboriginal Cultural Heritage Assessment Report (ACHAR) was prepared for the EIS. The ACHAR did not anticipate direct impacts to Aboriginal Heritage but did recommend that an Unexpected Finds Procedure be prepared.

The audit noted the EMP - EIG012-Heritage \Culture Management \Disturbance includes an unexpected finds protocol. There have been no unexpected finds to date.

Non Aboriginal Heritage

A Statement of Heritage Impact (SoHI) has been prepared by Artefact for the proposed development to assess any non-Aboriginal heritage impact to any built heritage items or potential archaeological deposit. The SOHI confirmed that there are no heritage items located in the study area or buffer zone of 250m. The EIS recommended that if any unexpected finds are encountered then the advice a qualified archaeologist should be sought to determine whether they are relics.

The audit notes that there have been no unexpected finds to date. It further notes that the EMP includes an unexpected finds protocol.

Landscaping

The EIS notes that Landscape Plans and a Landscape Public Domain Report have been prepared for the proposed development by Arcadia.

The audit noted that Arcadia have continued their involvement in the construction process and are advising Hindmarsh regarding landscaping requirements. Landscaping is yet to commence. It was noted during the first audit that the Landscape plans did not include the requirement for Nest Boxes. This audit noted that the landscape plans have been updated and nest boxes are included in the current plans (Arcadia Landscape plans Issue 3 dated 11 April 2022).

Environmental Amenity

The EIS covered amenity aspects of the development such as:

- Solar access
- Overshadowing
- View loss

These impacts were considered in the design.

As the construction work have not commenced on the physical structure the audit cannot provide commentary on this aspect.

Transport and accessibility

A Transport and Accessibility Statement was prepared by Taylor Thomson Whitting (TTW). The EIS included a preliminary Construction Traffic and Pedestrian Management Plan. This plan made a number of recommendations regarding construction traffic requirements, parking, haul routes and pedestrian and cyclist impacts.

The audit noted that the requirements of the preliminary Construction Traffic and Pedestrian Management Plan have been wholly carried over to the final Construction Traffic and Pedestrian Management Plan and all requirements being implemented.

ESD

ESD principals have been incorporated into the design. The requirement to carry these principals through to the designs for construction has been included in the conditions of consent for the project. The project certifier Blackett Maguire Goldsmith have certified that the ESD principals have been carried through.

Noise and Vibration

The noise associated with the construction work is expected to exceed the highly noise affected level from the Interim Construction Noise Guideline (ICNG) at the nearest affected residential receivers, with no acoustic screening and accordingly recommended a Construction Noise and Vibration Management plan be prepared.

Accordingly, a Construction Noise and Vibration Management Sub-Plan 20/10/2021 has been prepared by Pulse White Noise Acoustics. The plan sets noise management levels for the project. Noise and vibration monitoring has occurred for the project in February 2022 and shows that the noise management levels have been met. Furthermore, there have been no complaints regarding noise.

Contamination

An Environmental Site Assessment (ESA) was prepared for the proposed development by JK Environments. The ESA recommended the preparation of a Remediation Action Plan (RAP). This RAP has subsequently been reviewed in JK Environment report on revised Remediation Action Plan (March 2022). The reviewed RAP noted lesser levels of contamination on site that originally anticipated. As required by the RAP and the conditions of consent a contamination site auditor has been engaged to undertake ongoing advice as the works progress. This advice is evident through Phreatic Consulting: Interim Advice 1, AUDIT Sutherland Hospital Part A - Operating Theatre Complex: Review of Remedial Action Plan 1/2/2022 and Phreatic Consulting Interim Advice 2, AUDIT Sutherland Hospital Part A - Operating Theatre Complex: Review of Site Assessment 9/2/2022.

This second audit noted that an updated Remediation Action Plan has been prepared by JK Environments (JK Environment 5 April 2022). It was also noted that prior to final sign off from the site auditor there are an additional 4 sampling sites required to be tested. The sampling sites had not been tested due to access issues, but these will be completed in the coming weeks.

Waste

The EIS identified the volume and waste streams expected during construction.

These findings have been transferred to the Environmental Management & Sustainability Plan (EMP) Prepared by Hindmarsh 14/10/2021. The EMP addresses waste management in Section 16.10. The requirements of the waste management plan including waste and material tracking are being met.

Soil and Water

The EIS notes that the existing site stormwater catchments remain relatively unchanged. The EIS also included a concept a Soil and Erosion Sediment Control Plan. These requirements have been transferred to the construction Soil and Erosion Sediment Control plan – CV-DG-50001.

Implementation of these controls is checked via EIGS (environmental) inspections. The audit found that these inspections are occurring, and any maintenance requirements are being addressed.

3.13. Site Inspection

A site inspection was undertaken on the 21 September 2022. The inspection covered the entrance, external hoarding and a walk over of the entire site.

All structural work is now completed and internal fit out is now commencing.

Site entrances and exits were inspected. A bund was observed at the site entrance to prevent mud tracking.

3.14. Site Interviews

Site interviews occurred with the following staff:

- Mike Piciotto (CBRE)
- Reg Struwig (Hindmarsh Project Manager) – Reg was the primary contact for all construction related documentation
- Aivy Le (Hindmarsh Site Engineer)

3.15. Actions from Previous Annual Review and Compliance Reports

This is the second audit of the project. There is no compliance reporting required by the conditions during the construction phase of this project.

The review of plans required by A30 c), found that no updates to plans or strategies were required.

3.16. Continual Improvement Opportunities

It is noted that the project website is at:

<https://www.hinfra.health.nsw.gov.au/projects/project-search/sutherland-hospital-operating-theatre-complex>

However when the auditor was searching for project updates the latest update was not linked this site, rather it was located on the health Infrastructure News site at:

<https://www.hinfra.health.nsw.gov.au/news/latest/latest/sutherland-hospital-operating-theatre-complex-reac>

3.17. Key Strengths

The auditor notes the following key strengths as observed during the audit:

1. Both CBRE and Hindmarsh were very familiar with the conditions of consent and understood the requirements for compliance
2. Internal compliance tracking made information accessible and easy to find.

4. Recommendations

4.1. Recommended Actions

No non compliances were identified during this audit and no recommendations have been raised. One opportunity for improvement has been identified below.

4.2. Opportunities for Improvement.

As identified in Section 3.16 above, it would be useful if the project news/updates was linked from the Health Infrastructure news website to the Sutherland Hospital Operating Theatre Complex project website.

A3	Consistent with the requirements in this consent, the Planning Secretary may make writtendirections to the Applicant in relation to:				
	(a) the content of any strategy, study, system, plan, program, review, audit, notification, report or correspondence submitted under or otherwise made in relation to this consent, including those that are required to be, and have been, approved by the Planning Secretary;		A written warning (DPE 11 May 2022) was received regarding a non compliance in relation to condition C39 and the requirement for the independent auditor to be agreed to in writing by the secretary (DPE) prior to commencement of any independent audit. There was no further action required by DPE regarding the warning as the auditor had subsequently been agreed to.	NT	NT
	(b) any reports, reviews or audits commissioned by the Planning Secretary regarding compliance with this approval; and		Nil to date	NT	NT
	(c) the implementation of any actions or measures contained in any such document referred to in (a) above.		Refer to A3 a) above	NT	NT
A4	The conditions of this consent and directions of the Planning Secretary prevail to the extent of any inconsistency, ambiguity or conflict		No conflict	NT	NT

Appr oval ID	Requirement	Evidence collected	Independent Audit Findings and Recommendations	Finding Audit #1	Finding Audit #2
	between them and a document listed in condition <u>A2(c)</u> . In the event of an inconsistency, ambiguity or conflict between any of the documents listed in condition <u>A2(c)</u> , the most recent document prevails to the extent of the inconsistency, ambiguity or conflict.				
A5	Limits of Consent This consent lapses five years after the date of consent unless work is physically commenced.		Noted	NT	NT
A6	Prescribed Conditions The Applicant must comply with all relevant prescribed conditions of development consent under Part 6, Division 8A of the EP&A Regulation.	CC1 CC2 and CC3	It is noted that there is no Part 6, Division 8A of the EP&A Regulation however that this condition is likely referring to Part 6 Division 8 clause 98 which relates to compliance with the Building Code of Australia. The Certifier for the project is undertaking progressive assessment of the works for compliance with the BCA as evidenced in CC1 CC2 and CC3.	C	C
A7	Planning Secretary as Moderator In the event of a dispute between the Applicant and a public authority, in relation to an applicable requirement in this approval or relevant matter relating to the Development, either party may refer the matter to the Planning Secretary for resolution. The Planning Secretary's resolution of the matter must be binding on the parties.		No disputes to date	NT	NT

	2014).				
C30	The Applicant must ensure that concrete waste and rinse water are not disposed of on the site and are prevented from entering any natural or artificial watercourse.	Site visit	Any concrete waste is washed in a secured bunded area and allowed to dry on site. This is then broken down and reused onsite.	C	C
C31	The Applicant must record the quantities of each waste type generated during construction and the proposed reuse, recycling and disposal locations for the duration of construction.	Tipping docket 18/1/2022 Waste & recycling report Kamliaroi February 2022 report Waste & recycling report Kamliaroi March, April, June July and August 2022.	Tipping docket are used to record the volume and type of waste and where they are disposed/reused. The Kamliaroi report records the type of all waste removed from site, by weight or volume and gives summaries on reuse/recycling	C	C
C32	The Applicant must ensure that the removal of hazardous materials, particularly the method of containment and control of emission of fibres to the air, and disposal at an approved waste disposal facility is in accordance with the requirements of the relevant legislation, codes, standards and guidelines.	Asbestos removal control plan 25/11/2021 prepared by Serve Group PTY LTD – asbestos licence holder	The only hazardous material to date that has been removed from site to date is asbestos and ACM in two Telstra pits. The asbestos removed by a licenced contractor – Serve group in accordance with all requirements.	C	C
C33	Outdoor Lighting The Applicant must ensure that all external lighting is constructed and maintained in accordance with AS 4282-2019 Control of			NT	NT

Appr oval ID	Requirement	Evidence collected	Independent Audit Findings and Recommendations	Finding Audit #1	Finding Audit #2
	the obtrusive effects of outdoor lighting.				
C34	Site Contamination The Applicant must conduct site investigations to confirm the full nature and extent of the contamination at the project area and comply with the following requirements:	JK Environments report on revised remediation Action Plan March 2022			
	(a) the site investigations must be undertaken, and the subsequent report(s), must be prepared in accordance with relevant guidelines made or approved by the EPA under section 105 of the <i>Contaminated Land Management Act 1997</i> ;		Site investigations have been undertaken by JK Environment have prepared an updated RAP and undertaken site investigations. The work has been undertaken by an approved site auditor.	C	C
	(b) the reports must be prepared, or reviewed and approved, by consultants certified under either the Environment Institute of Australia and New Zealand's Certified Environmental Practitioner (Site Contamination) scheme (CEnvP(SC)) or the Soil Science Australia Certified		The report has been reviewed and signed off by Brendan Page CEnvP SC (No. SC40059)	C	C

Appr oval ID	Requirement	Evidence collected	Independent Audit Findings and Recommendations	Finding Audit #1	Finding Audit #2
	Professional Soil Scientist Contaminated Site Assessment and Management (CPSS CSAM) scheme; and				
	(c) the recommendations of the 'Remediation Action Plan' prepared by JK Environments and dated 8 February 2021.		The report considers and updates the requirements of this report.	C	C
C35	The unexpected finds procedure within the 'Remediation Action Plan' prepared by JK Environments and dated 8 February 2021 must be updated following results of further site investigations undertaken in accordance with condition <u>C34</u> and implemented throughout duration of project work.	JK Environment report on revised Remediation Action Plan March 2022	JK Environment report on revised Remediation Action Plan (March 2022) Section 8.1 includes an updated unexpected finds procedure.	C	C
C36	Remediation of the site must be carried out in accordance with the 'Remediation Action Plan' prepared by JK Environments and dated 8 February 2021 and any variations to the Remediation Action Plan approved by an NSW EPA-accredited Site Auditor.	Phreatic Consulting :Interim Advice 1, AUDIT Sutherland Hospital Part A - Operating Theatre Complex: Review of Remedial Action Plan 1/2/2022 Phreatic Consulting Interim Advice 2, AUDIT Sutherland Hospital Part A -	Interim advice 2 notes that one location (BH3) was found to contain unacceptably high concentration of PAH compounds and requires remediation. No other contamination was reported in the site soils at concentrations in excess of the screening criteria, but vertical and lateral delineation of fill quality was not able to be completed due to the extent of services present and the presence of site structures. Accordingly, sampling locations are not evenly distributed across the site and relatively large potential	C	C

Approval ID	Requirement	Evidence collected	Independent Audit Findings and Recommendations	Finding Audit #1	Finding Audit #2
		<p>Operating Theatre Complex: Review of Site Assessment 9/2/2022</p> <p>A Revised RAP was completed by JK Environments on 5/4/2022.</p>	<p>hotspots may be present in under-sampled areas.</p> <p>Impacts in fill are notoriously heterogeneous and are not necessarily consistent across the site. This uncertainty is enhanced by limited quality control data available from the original assessment, which is relied on in determining the extent of contamination present. Accordingly, the Auditor will require validation of remaining site soils at the completion of excavation, and where such soils are exposed during the redevelopment. The report further notes that given the commercial and fully paved use of the site only human health based criteria are required to drive remediation, and the Auditor is satisfied that soils with contaminants present at concentrations exceeding ESLs do not require remediation. Audit 2 notes that there are 4 sites remaining that require test pitting, these are yet to occur due to access issues.</p>		
C37	Where remediation is carried out / completed in stages, a NSW EPA-accredited Site Auditor must confirm satisfactory completion of each stage by the issuance of Interim Audit Advice(s).	Phreatic Consulting	Tim Chambers (Phreatic Consultant) is a NSW EPA Accredited Site Auditor (#10) and is undertaking ongoing advice at the site	C	C

D5	<p>Warm Water Systems and Cooling Systems</p> <p>The installation of warm water systems and water cooling systems (as defined under the <i>Public Health Act 2010</i>) must comply with the <i>Public Health Act 2010</i>, Public Health</p>			NT	NT

Appr oval ID	Requirement	Evidence collected	Independent Audit Findings and Recommendations	Finding Audit #1	Finding Audit #2
	Regulation 2012 and Part 1 (or Part 3 if a Performance-based water cooling system) of <i>AS/NZS 3666.2:2011 Air handling and water systems of buildings – Microbial control – Operation and maintenance</i> and the NSW Health Code of Practice for the Control of Legionnaires' Disease.				
D6	<p>Outdoor Lighting</p> <p>Prior to the commencement of operation, the Applicant must submit evidence from a suitably qualified practitioner to the Certifier that demonstrates that installed lighting associated with the development achieves the objective of minimising light spillage to any adjoining or adjacent sensitive receivers and:</p>			NT	NT
	<p>(a) complies with the latest version of AS 4282-2019 - <i>Control of the obtrusive effects of outdoor lighting</i> (Standards Australia, 1997); and</p>			NT	NT

Approval ID	Requirement	Evidence collected	Independent Audit Findings and Recommendations	Finding Audit #1	Finding Audit #2
	(b) has been mounted, screened and directed in such a manner that it does not create an nuisance to surrounding properties or the public road network.			NT	NT
D7	Mechanical Ventilation Prior to commencement of operation, the Applicant must provide evidence to the satisfaction of the Certifier that the installation and performance of the mechanical ventilation systems complies with:			NT	NT
	(a) <i>AS 1668.2-2012 The use of air-conditioning in buildings – Mechanical ventilation in buildings</i> and other relevant codes; and			NT	NT
	(b) any dispensation granted by Fire and Rescue NSW.			NT	NT
D8	Operational Noise – Design of Mechanical Plant and Equipment Prior to the commencement of operation, the Applicant must submit evidence to the Certifier that the noise mitigation recommendations in the assessment undertaken under condition <u>B22</u> have been incorporated into the design of			NT	NT

Appr oval ID	Requirement	Evidence collected	Independent Audit Findings and Recommendations	Finding Audit #1	Finding Audit #2
	mechanical plant and equipment to ensure the development will not exceed the project noise trigger levels identified in the 'Noise & Vibration Impact Assessment for SSDA (SSD-11099584) (Revision G)' prepared by JHA Consulting Engineers and dated 10 August 2021.				
D9	Fire Safety Certification Prior to commencement of occupation, a Fire Safety Certificate must be obtained for all the Essential Fire or Other Safety Measures forming part of this consent. A copy of the Fire Safety Certificate must be submitted to the relevant authority and Council. The Fire Safety Certificate must be prominently displayed in the building.			NT	NT
D10	Structural Inspection Certificate Prior to the commencement of occupation of the relevant parts of any new or refurbished buildings, a Structural Inspection Certificate or a Compliance Certificate must be submitted to the Certifier. A copy of the Certificate with an electronic set of final drawings (contact approval authority for specific electronic format) must be submitted to the approval authority and the Council after:			NT	NT
	(a) the site has been periodically inspected and the Certifier is satisfied that				NT

Appr oval ID	Requirement	Evidence collected	Independent Audit Findings and Recommendations	Finding Audit #1	Finding Audit #2
	the structuralworks is deemed to comply with the final design drawings; and				
	(b) the drawings listed on the Inspection Certificate have been checked with those listed on the final Design Certificate/s.			NT	NT
D11	<p>Post-Construction Dilapidation Report – Protection of Public Infrastructure</p> <p>Prior to the commencement of operation, the Applicant must engage a suitably qualified and experienced expert to prepare a Post-Construction Dilapidation Report. This Report must:</p>			NT	NT
	(a) ascertain whether the construction works created any structural damage to public infrastructure by comparing the results of the Post-Construction Dilapidation Report withthe Pre-Construction Dilapidation Report required by condition B5 of this consent;			NT	NT

Appr oval ID	Requirement	Evidence collected	Independent Audit Findings and Recommendations	Finding Audit #1	Finding Audit #2
	(b) have, if it is decided that there is no structural damage to public infrastructure, the written confirmation from the relevant public authority that there is no adverse structural damage to their infrastructure (including roads).			NT	NT
	(c) be submitted to the Certifier;			NT	NT
	(d) be forwarded to Council for information; and			NT	NT
	(e) be provided to the Planning Secretary when requested.			NT	NT
D12	Repair of Public Infrastructure Unless the Applicant and the relevant public authority agree otherwise, the Applicant must:			NT	NT
	(a) repair, or pay the full costs associated with repairing, any public infrastructure that is damaged by carrying out the construction works; and/or			NT	NT

Appendix B: Planning secretary audit team agreement

Mr Nicholas Dowman
1 Reserve Road
ST LEONARDS NSW 2065

22 April 2022

Dear Mr Dowman

Sutherland Hospital Upgrade (SSD-11099584)
Appointment of Independent Environmental Auditor

I refer to your request (SSD-11099584-PA-13) for the Planning Secretary's endorsement of a suitably qualified, experienced and independent environmental auditor to conduct independent environmental audits of the Sutherland Hospital Upgrade development. Under Condition C39 of the Development Consent the independent auditor is required to be agreed to in writing by the Planning Secretary prior to the commencement of an Independent Audit.

The Department of Planning and Environment (**Department**) has reviewed the nomination and information you have provided against Condition C39 of the Approval and the *Independent Audit Post Approval Requirements* (DPIE, 2020) (**IA PAR**), specifically section 3.1.

The Department is satisfied that Ms Natascha Arens is certified with SAI Global as a lead auditor in environmental management systems, and is suitably experienced and qualified in state significant projects and has supplied declarations of independence.

Consequently, in accordance with Condition C39 of SSD-11099584 I can advise that the Planning Secretary endorses Ms Natascha Arens, NGH, as Lead Auditor.

Notwithstanding the endorsement of the above auditor, each respective project approval or consent requires a request for the agreement to the auditor or audit team be submitted to the Department, for consideration of the Planning Secretary. Each request is reviewed and depending on the complexity of future projects, the suitability of a proposed auditor or audit team will be considered.

The Department reserves the right to request an alternate auditor or experts for any future independent environmental audits under SSD-11099584.

The independent environmental audit must satisfy Condition C40 of SSD-11099584 and be conducted in accordance with the IA PAR. Failure to do so may require revision and resubmission of the audit report.

Please ensure this correspondence is appended to the audit report.

If you wish to discuss the matter further, please contact Ania Dorocinska, Senior Compliance Officer on 02 9274 6225 or via ania.dorocinska@planning.nsw.gov.au.

Yours sincerely

A handwritten signature in black ink, appearing to be 'R. Sko'.

Team Leader Compliance – Government Projects

As nominee of the Secretary

Appendix C: Consultation

Good Afternoon Natascha,

I am comfortable with the approach proposed in your email below.

Kind regards,

Ania Dorocińska

Senior Compliance Officer – Government Projects

Subject: RE: Sutherland Hospital Operating Theatre Independent Audit SSD 11099584

Good Morning Ania

I am once again about to undertake an audit of the above project, the second audit.

It is noted that the project has received a warning letter for not seeking the departments approval for the auditor prior to undertaking the audit. This will be followed up at this up coming audit.

The scope of this audit will broadly include:

- Conditions of consent applicable to the construction phase of the project
- All post approval documents required by the conditions of consent (e.g. implementation of Environmental management plans and sub plans)

- All environmental licences and approvals applicable to the development
- An assessment of the environmental performance of the development
- A high-level review of the project's EMS

Is there any particular aspect of the project that the post approval team would like the audit to focus on? Your earliest response would be appreciated

Kind regards

Natascha

Appendix D: Declaration of independence

Independent Audit Report Declaration Form

Project Name: Sutherland Hospital Operating Theatre

Consent Number: 110990584

Description of Project: Construction of a new Clinical Services Building. The Sutherland Hospital Operating Theatres Project will be delivered as a combination of new build and refurbishment in a 'live' hospital environment.

Project Address: Kareena Rd, Caringbah NSW 2229

Proponent: health Infrastructure

Title of Audit: Sutherland Hospital Independent Audit 1

Date: 27 September 2022

I declare that I have undertaken the Independent Audit and prepared the contents of the attached Independent Audit Report and to the best of my knowledge:

- i. the audit has been undertaken in accordance with relevant condition(s) of consent and the *Independent Audit Compliance Requirements (Department 2019)*;
- ii. the findings of the audit are reported truthfully, accurately and completely;
- iii. I have exercised due diligence and professional judgement in conducting the audit;
- iv. I have acted professionally, objectively and in an unbiased manner;
- v. I am not related to any proponent, owner or operator of the project neither as an employer, business partner, employee, or by sharing a common employer, having a contractual arrangement outside the audit, or by relationship as spouse, partner, sibling, parent, or child;
- vi. I do not have any pecuniary interest in the audited project, including where there is a reasonable likelihood or expectation of financial gain or loss to me or spouse, partner, sibling, parent, or child;
- vii. neither I nor my employer have provided consultancy services for the audited project that were subject to this audit except as otherwise declared to the Department prior to the audit; and
- viii. I have not accepted, nor intend to accept any inducement, commission, gift or any other benefit (apart from payment for auditing services) from any proponent, owner or operator of the project, their employees or any interested party. I have not knowingly allowed, nor intend to allow my colleagues to do so.

Notes:

- a) Under section 10.6 of the *Environmental Planning and Assessment Act 1979* a person must not include false or misleading information (or provide information for inclusion in) in a report of monitoring data or an audit report produced to the Minister in connection with an audit if the person knows that the information is false or misleading in a material respect. The proponent of an approved project must not fail to include information in (or provide information for inclusion in) a report of monitoring data or an audit report produced to the Minister in connection with an audit if the person knows that the information is materially relevant to the monitoring or audit. The maximum penalty is, in the case of a corporation, \$1 million and for an individual, \$250,000; and
- b) The *Crimes Act 1900* contains other offences relating to false and misleading information: section 307B (giving false or misleading information – maximum penalty 2 years imprisonment or 200 penalty units, or both)
